Ankur Singh

Frontend Developer(React)

PROFESSIONAL SUMMARY

Professional Summary: `` Dynamic web developer skilled in HTML, CSS, JavaScript, and React.js, with a proven ability to learn new tech stacks rapidly. Proficient in creating responsive, user-friendly interfaces using Generative AI. Strong problem-solving skills and a collaborative approach to enhance frontend development and user experience. ``

PROJECTS

1. E-Commerce Website | |

JavaScript | React | Git | HTML5 | CSS3 |

Responsive Web Design | Chakra UI

- Developed a responsive e-commerce site with React.js ensuring a seamless shopping experience across all devices.
- Implemented core functionalities like add-to-cart, user authentication, sign-up, and sign-in.
- Utilized Chakra UI for visually appealing and consistent design.
- Integrated various features to maintain brand identity and smooth UX.
- Used Git for version control and collaborative workflow.

2. Skin Store | |

JavaScript | Git | HTML5 | CSS3 |

Responsive Web Design

- Cloned Skin Store with a focus on mobile-friendly and responsive design.
- Optimized overall performance and ensured the website maintained brand's visual identity.
- Utilized JavaScript, HTML5, and CSS3 to develop a visually appealing and functional website.
- Conducted thorough testing to ensure cross-browser compatibility.
- Implemented best practices for frontend development enhancing the code quality.

3. Bewakoof.com | |

JavaScript | Git | HTML5 | CSS3 | Bootstrap |

Responsive Web Design

- Cloned Bewakoof.com focusing on a mobile-friendly and responsive design using Bootstrap.
- Optimized both performance and visual aspects to align with the brand's identity.
- Implemented thorough testing to ensure reliability and cross-browser compatibility.
- Used Git for version control ensuring smooth developmental workflow.
- Applied best practices in frontend development to improve project scalability and maintainability.
